

Professional Summary

AI Data Science undergraduate focused on **AI-driven cybersecurity, workflow automation, and secure intelligent systems**. Built hackathon-winning products and automation pipelines with strong interest in enterprise security and ethical AI.

Experience

- AI Developer Intern — Stickbook

May 2026 – Present[2pt]

 - Built automated certificate generation and personalized email delivery pipelines using PNG templates and Google Form data.
 - Developed workflow automation reducing manual effort in certificate generation and distribution.
 - Created automated end-of-day email summarization systems for reporting and productivity.
- Cybersecurity Trainee — Pi Sigma MySkillForce

Jun 2026 – Present[2pt]

 - Working on reconnaissance and security enumeration using Nmap and Shodan.
 - Learning attack surface mapping and vulnerability assessment.
- AI Developer Intern — Viswam.ai

Apr 2025 – May 2025[2pt]

 - Gained practical exposure to AI workflows and machine learning pipelines.
 - Worked on foundational AI tasks involving preprocessing and model understanding.

Projects

- EcoWipe — Live[2pt]
 - Built secure data wiping platform with tamper-proof wiping verification.
 - Winner project at Prajwalan 2K26 National Hackathon.
- LateralShield + TrapWeave[2pt]
 - Developing AI anomaly detection and honeypot deception for enterprise lateral movement detection.
 - Using Isolation Forest for attack containment.
- FairLens — GitHub[2pt]
 - Built fairness evaluation framework for machine learning bias detection.
- Stickbook Automation Pipeline[2pt]
 - Built automation workflows for certificate generation and reporting.

Achievements

- Winner – Prajwalan 2K26 National Hackathon
- Winner – Samagra National Hackathon
- SIH 2nd level Finalist
- ATF 2nd Stage Qualifier
- GSSoC 2026 Selected Contributor
- TCS Brand Ambassador

Technical Skills

Programming: Java, Python, JavaScript, SQL **AI/ML:** Machine Learning, Data Analytics, Ethical AI **Cybersecurity:** Nmap, Shodan, Threat Detection **Web Development:** React.js, Node.js, Express.js, HTML, CSS **Core Concepts:** Data Structures, OOP, REST APIs, DBMS

Leadership

SRKR Coding Club Associate Student Coordinator – South Zone Youth Festival Organizer Trainer – AI Cybersecurity Summer Camp

Education

Sagi Ramakrishnam Raju Engineering College (SRKR) Bachelor of Technology in Artificial Intelligence and Data Science CGPA: 9.33/10 (Till 3rd Semester) 2024 – 2028
